August 5, 2005

Board of Education Public Schools of Petoskey Petoskey, Michigan

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of *Public Schools of Petoskey*, as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements, as listed in the table of contents. These financial statements are the responsibility of *Public Schools of Petoskey's* management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of *Public Schools of Petoskey* as of June 30, 2005, and the respective changes in financial position thereof and the budgetary comparisons for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated August 5, 2005 on our consideration of *Public Schools of Petoskey's* internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of the testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The Management's Discussion and Analysis on pages 3-10 is not a required part of the basic financial statements but is supplementary information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the *Public Schools of Petoskey's* basic financial statements. The combining and individual nonmajor fund financial statements and schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements of *Public Schools of Petoskey*. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements of *Public Schools of Petoskey*. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The other supplementary information included on pages 54-56 is presented for additional analysis and is not a required part of the basic financial statements and accordingly, we express no opinion on it.

Rehmann Johann

# Management's Discussion and Analysis

As management of the Public Schools of Petoskey (District), a K-12 school District located in Emmet and Charlevoix Counties, Michigan, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the fiscal year ended June 30, 2005. Please read it in conjunction with the District's financial statements, which immediately follow this section.

# **Overview of the Financial Statements**

The District's basic financial statements consist of two parts: Management's Discussion and Analysis (this section) and the basic financial statements. This report also contains other supplementary information.

The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are the *District-wide financial statements* that provide both short-term and long-term information about the District's overall financial status. These statements present an aggregate view of the District's finances and a longer-term view of those finances.
- The next statements are *fund financial statements* that focus on individual parts of the District. These statements look at the District's operations in more detail than the District-wide financial statements by providing information about the District's most significant funds the General Fund, Debt Service Fund, and the Sinking Fund, with all other funds presented in one column as Nonmajor Funds.

The statement of fiduciary assets and liabilities presents financial information about activities for which the District acts solely as an agent for the benefit of students and parents.

**District-wide financial statements.** The *District-wide financial statements* report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets and the statement of activities, which appear first in the District's financial statements, include all assets and liabilities and use the accrual basis of accounting. This means that all of the current year's revenues and expenses are taken into account regardless of when cash is received.

The two District-wide financial statements report the District's net assets and how they have changed. Net assets – the difference between the District's assets and liabilities – is one way to measure the District's financial health or position. Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.

The relationship between revenues and expenses is the District's operating results. However, it should be noted that unlike most private-sector companies where improving shareholder wealth is the goal, the District's goal is to provide services to our students. Therefore, in order to assess the overall health of the District, one must consider many non-financial factors such as the quality of education provided, breadth of curriculum offered, condition of school facilities, and the safety of the schools.

The statement of net assets and statement of activities report the governmental activities for the District, which encompass all of the District's services including instruction, supporting services, community services, athletics, and food services. Property taxes, unrestricted State Aid, State grants, and Federal grants finance most of these activities.

**Fund financial statements.** The District's *fund financial statements* provide detailed information about the most significant funds – not the District as a whole. Some funds are required to be established by State law and by bond covenants, though the District may establish other funds to help control and manage money for particular purposes. It may also establish other funds to show that it is meeting legal responsibilities for using certain taxes, grants, and other money.

The fund level financial statements are reported on a modified accrual basis, which measures only those revenues that are "measurable" and "currently available". Expenses are recognized to the extent that they are normally expected to be paid with current financial resources.

The fund financial statements are formatted to comply with the legal requirements of the Michigan Department of Education's Bulletin 1022. In the State of Michigan, the District's major instructional and instructional support activities are reported in the General Fund. Additional activities are reported in their relevant funds including:

- Debt Service Fund consisting of the 1993 bonds, 1998 bonds, 2005 refunding bonds, Durant bonds, and Foster Land Contract.
- Special Revenue Funds consisting of the Food Service Fund and the Athletic Fund
- Capital Projects Funds consisting of the Building & Site Fund, Roof Repair Fund, 1998 Capital Projects Fund, and Sinking Fund.

In the fund financial statements, purchased capital assets are reported as expenditures in the year of acquisition. No asset is reported. The issuance of debt is recorded as a financial resource. The current year's payments of principal and interest on long-term obligations are recorded as expenditures. Future debt obligations are not recorded.

The District is the trustee, or fiduciary, for its student activity funds. All of the District's fiduciary activities are reported in a separate statement of fiduciary assets and liabilities. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

# Financial Analysis of the District as a Whole

As stated earlier, the summary of net assets provides the perspective of the District as a whole. The District's net assets decreased 3.9 percent to approximately \$24 million. Table 1 provides a summary of the District's net assets as of June 30, 2005 and June 30, 2004:

# Public Schools of Petoskey Condensed Statement of Net Assets Table 1

|                             | Governmen            | tal Activities_      | Percentage    |  |
|-----------------------------|----------------------|----------------------|---------------|--|
|                             | 2005                 | 2004                 | <b>Change</b> |  |
| Assets                      |                      |                      |               |  |
| Current assets              | \$ 9,281,504         | \$ 8,707,498         | 6.59%         |  |
| Capital assets, net of      | , -, -,              | , ,                  |               |  |
| accumulated depreciation    | 46,047,172           | 47,149,071           | -2.34%        |  |
| Total assets                | 55,328,676           | 55,856,569           | 95%           |  |
| Liabilities                 |                      |                      |               |  |
| Current liabilities         | 4,906,549            | 2,802,957            | 75.05%        |  |
| Long-term liabilities       | 26,393,508           | 28,045,634           | -5.89%        |  |
| Total liabilities           | 31,300,057           | 30,848,591           | 1.46%         |  |
| Invested in capital assets, |                      |                      |               |  |
| net of related debt         | 20,022,216           | 19,543,958           | 2.45%         |  |
| Restricted                  | 2,161,814            | 2,306,695            | -6.28%        |  |
| Unrestricted                | 1,844,589            | 3,157,325            | -41.58%       |  |
| Total net assets            | <u>\$ 24,028,619</u> | <u>\$ 25,007,978</u> | -3.92%        |  |

Capital assets net of related debt, \$20 million, is the original cost of the District's capital assets, less depreciation, less the long-term debt outstanding used to finance the acquisition of those assets. This debt will be repaid from voter-approved property taxes collected as the debt and interest payments come due. Restricted net assets of \$2.2 million are shown separately to recognize legal constraints from debt covenants and enabling legislation. These constraints limit the District's ability to use those net assets for day-to-day operations.

The remaining amount of net assets of \$1.8 million was unrestricted and represents the accumulated results of all past years' operations. The operating results of the General Fund will have a significant impact on the change in unrestricted net assets from year to year.

The results of this year's operations for the District as a whole are reported in the statement of activities, summarized in Table 2, which shows the changes in net assets for fiscal year 2005 and 2004.

# Public Schools of Petoskey Condensed Statement of Change in Net Assets Table 2

|                                   |                     | tal Activities    | Percentage    |
|-----------------------------------|---------------------|-------------------|---------------|

| Total revenues                    | 29,052,025          | 28,420,467        | 2.17%         |
| Expenses                          |                     |                   |               |
| Instruction                       | 16,988,502          | 15,376,357        | 9.49%         |
| Support services                  | 7,919,829           | 7,498,815         | 5.32%         |
| Community services                | 36,558              | 36,135            | 1.16%         |
| Food services                     | 998,641             | 982,870           | 1.58%         |
| Athletics                         | 577,738             | 554,989           | 3.94%         |
| Interest/fees on long-term debt   | 1,251,304           | 1,351,738         | -8.03%        |
| Depreciation (unallocated)        | 2,258,812           | 2,240,881         | .80%          |
| Depreciation (analiseated)        |                     |                   |               |
| W ( 17)                           | 20.021.201          | <b>30.044 #05</b> | ( (20)        |
| <b>Total Expenses</b>             | 30,031,384          | 28,041,785        | 6.63%         |
| (Decrease) Increase in Net Assets | <u>\$ (979,359)</u> | <u>\$ 378,682</u> | -358.62%      |

Of the District's total revenues available to operate the District, approximately 3.4 percent or one million came from fees charged to those who benefited from the programs. Approximately 10 percent or \$2.9 million of revenues came from other governments or organizations that subsidize certain programs with grants and other directed types of funding.

Local property taxes, in the amount of \$17.2 million, supported the remaining portion of the governmental activities. This is \$1.1 million more than the prior year due to increased property tax values, combined with voter passage of a Headlee override millage increase. The property tax revenue comes mainly from the 18 mills on all non-homestead property, which we are required to levy by the State in order to receive our full State foundation allowance. The District enjoys the support of the community in maintaining our facilities, as \$1.6 million of the \$17.2 million in tax revenue is generated by a special millage specifically for capital expenditures. The proceeds and expenditures of this special millage are exclusively tracked in the District's Sinking Fund. This special millage was renewed by voters in May 2005, and is now set to expire on December 31, 2012.

The State foundation allowance accounted for 27 percent or \$7.8 million of the revenue available. This revenue is determined by a formula that incorporates pupil headcount, the annual per pupil allowance, and the non-homestead property taxable values of the District.

The expense portion of Table 2 shows the financial support each functional area required during the year. Being in the business of educating children, the largest expenses were incurred in instruction, which accounted for \$17 million or 57 percent of total expenses. Support services cost \$7.9 million or 26 percent of all expenses, which includes such items as transportation, maintenance, security, supervision, counseling, health care, and a variety of similar services that support the District's mission of educating children.

The District experienced a decrease in net assets of \$979,359 or approximately 3.9 percent. Included in the current fiscal year was a freeze in the foundation allowance funding by the State of Michigan at \$6,700 per student, for the third year in a row while costs have continued to escalate. A further revenue reduction was caused by a decrease in student enrollment of 12 students, for a total enrollment of 3,083 students. Overall, revenue increased approximately 2.2%, while expenses increased by approximately 6.6%. Finally, it should be noted that under the accrual basis of accounting, property taxes collected for debt service are recognized as revenue, while only interest on the debt is recognized as expense. The decrease in net assets differs from the change in fund balance and a reconciliation appears later in the financial statements.

# **Financial Analysis of The District's Funds**

As noted earlier, the District uses funds to help control and manage money for particular purposes. Looking at funds helps the reader consider whether the District is being accountable for the resources taxpayers and others provide, and may provide more insight in the District's overall financial health. As the District completed this year, the governmental funds reported a combined fund balance of \$4.4 million, which is a decrease of \$1,725,364 from the prior year.

Approximately 50% of this total amount, or \$2.2 million, constitutes *unreserved fund balance*, which is available for spending at the District's discretion. The remainder of the fund balance, or \$2.2 million, is *reserved* to indicate that it is not available for spending at the District's discretion. Of the reserved fund balance, \$2 million is earmarked for capital improvements and .2 million for payments on long-term debt.

The general fund is the principal operating fund of the District. At the end of the current fiscal year, unreserved fund balance of the general fund was \$2,116,580, while total fund balance was \$2,143,258. As a measure of the general fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance and total fund balance each represent approximately 8.6 percent of total general fund expenditures and transfers.

The fund balance of the District's general fund decreased by \$1,535,194 during the current fiscal year. This decrease is primarily attributable to a freeze in the foundation allowance, for a third year in a row, while costs have continued to increase. See the above discussion relative to District-wide governmental activities.

# **General Fund Budgetary Highlights**

Over the course of the year, the District revises its budget as it attempts to deal with changes in revenues and expenditures. State law requires the budget be amended to ensure expenditures do not exceed appropriations. A schedule showing the District's original and final budget amounts, compared with amounts actually paid and received, is provided in the basic financial statements. Major changes to the General Fund original budget were:

- Final budgeted local sources of revenue decreased from the original budget by \$.5 million. The original budget was created using estimated taxable values from the townships. The revised budget used actual taxable values, which were less than the original estimate.
- Final budgeted state sources of revenue increased from the original budget by \$.3 million, which is due to the taxable value issue noted above. Under the state aid foundation formula, the amount of State Aid received from the State is directly, and inversely, related to the amount of tax revenue received by the local school district. Therefore, as tax revenue decreases due to changes in taxable value, State Aid increases by a similar amount.
- The District's final, actual General Fund expenditures differed by \$441,298 from the final budget, a variance of 1.8 percent. The reduction of actual expenditures over budget is due to cost saving programs implemented throughout the year.

# **Capital Asset and Debt Administration**

**Capital Assets.** By the end of June 30, 2005, the District had invested \$64.6 million in a broad range of capital assets, including school buildings, land, athletic facilities, furniture, and equipment. This represents a net increase (including all additions and disposals) of \$1.1 million or 2.3 percent from last year. More detailed information about capital assets is available in Note III C to the financial statements.

This year's capital assets additions include completion of window and casework renovation projects at all of our elementary schools and high school. Construction in progress consists of a parking lot replacement project, and a bathroom renovation project at the high school. It also includes a major roof replacement project at Central Elementary School.

# Public Schools of Petoskey Capital Assets Table 3

|                               | 2005                 | 2004                 |
|-------------------------------|----------------------|----------------------|
| Land                          | \$ 2,448,187         | \$ 2,448,187         |
| Construction-in-progress      | 226,784              | 56,655               |
| Buildings                     | 54,733,309           | 53,903,958           |
| Furniture and equipment       | 7,222,188            | 7,064,755            |
| Total capital assets          | 64,630,468           | 63,473,555           |
| Less accumulated depreciation | 18,583,296           | 16,324,484           |
| Net capital assets            | <u>\$ 46,047,172</u> | <u>\$ 47,149,071</u> |

**Debt.** At year-end, the District had \$25 million in general obligation bonds and other long-term debt outstanding – a reduction of eight percent from last year – as shown in Table 4. More detailed information about the District's long-term debt is presented in Note III F to the financial statements, and in the Other Supplemental Information section.

# Public Schools of Petoskey Long-Term Debt Table 4

|   | 2005                 | 2004                       |
|---|----------------------|----------------------------|
| General obligation bonds<br>Other general obligation debt | \$ 24,710,000<br>    | \$ 26,820,000<br>1,225,634 |
| Total long-term debt                                      | <u>\$ 26,393,508</u> | <u>\$ 28,045,634</u>       |

In 2004, the District entered into a land contract for the purchase of land. The original amount of the land contract was \$700,000, and the remaining balance at year end is \$648,330.

During the year, the District refunded its 1998 School Building and Site Bonds realizing an economic gain of approximately \$700,000.

# **Factors Bearing on the District's Future**

We consider many factors when setting the District's 2005-06 fiscal year budget. One of the most important factors affecting our budget is our student count. The State foundation allowance is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2005-06 budget is 25 percent and 75 percent of the February 2005 and September 2005 student counts, respectively. The 2005-06 fiscal year budget was adopted in June 2005, based on an estimate of students that will be enrolled in September 2005. Approximately 67% percent of total General Fund revenues are from the foundation allowance. Under State law, the District cannot access additional property tax revenue for general operations. As a result, the District funding is heavily dependent on the State's ability to fund local school operations.

Since the District's revenue is heavily dependent on State funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect the revenues to fund its appropriation to school districts. In fiscal year 2002-03, the State set the foundation allowance at \$6,700 per pupil. Later that same year, the State issued Executive Order cuts that resulted in a reduction of approximately \$180,000 in revenue for the District. In fiscal year 2003-04, the State again set the foundation allowance at \$6,700 per pupil. State ordered cuts later that same year resulted in a reduction of approximately \$229,000 in revenue for the District. In 2004-05, the foundation allowance was set at \$6,700 for a third year in a row. Early indications from the State for funding levels for fiscal year 2005-06 indicate the foundation allowance will be set at \$6,875, a \$175 per student increase. Recent State revenue-estimating conferences are unclear whether actual collections are meeting the estimates used in setting the 2005-06 foundation allowance funding level. This makes it difficult to estimate whether the District will incur revenue reductions during the upcoming school year.

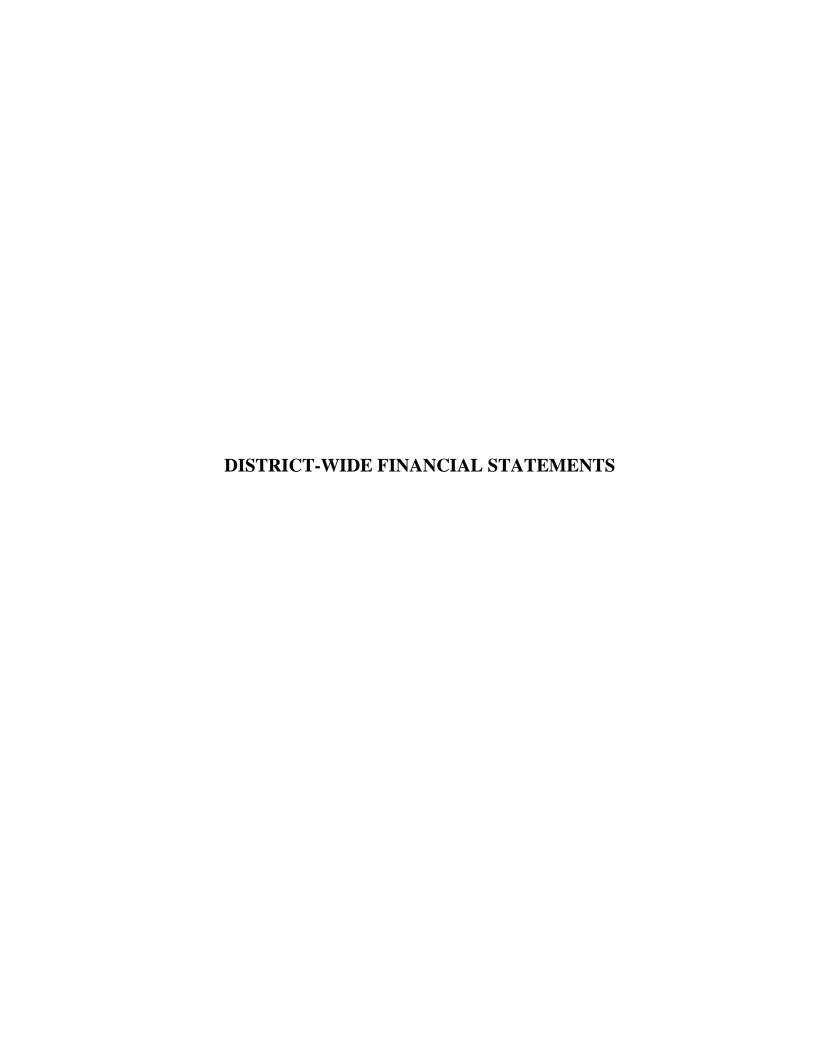

In reaction to three straight years of stagnant State funding, coupled with escalating costs, the District cut approximately \$1.6 million in expenses out of the 2005-06 budget. These cuts were made through a combination of measures that mostly affected non-educational areas, and included some limited work force reductions. Based on current funding projections, no additional cuts are anticipated for the 2005-06 school year.

The District's labor contracts with the Petoskey Education Association and the Petoskey Educational Support Personnel Association, which represents both the District's teachers and the District's support personnel, are set to expire in August 2005. Negotiations are on going and settlement is expected prior to, or just after, the start of the school year.

# **Contacting the School District's Financial Management**

This financial report is designed to provide the District's citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances. It is also designed to demonstrate the District's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the Business Office, 1130 Howard Street, Petoskey, Michigan 49770.

#### BALANCE SHEET GOVERNMENTAL FUNDS

#### **JUNE 30, 2005**

Reconciliation of fund balances on the balance sheet for governmental funds to net assets of governmental activities on the statement of net assets

#### Fund balances - total governmental funds

4,392,558

Amounts reported for governmental activities in the statement of net assets are different because

Capital assets used in governmental activities are not financial resources and therefore are not reported in the reported governmental funds.

Add - capital assets 64,630,468

Deduct - accumulated depreciation (18,583,296)

Certain liabilities, such as bonds payable, are not due and payable in the current period and therefore are not reported in the funds.

Add - bond issuance costs, net of amortization 800,655

Deduct - bond premium, net of amortization (653,655)

- bonds and other long-term liabilities (26,024,956)
- accrued interest on bonds payable (164,603)
- compensated absences (368,552)

Net assets of governmental activities \$ 24,028,619

Concluded

# STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES GOVERNMENTAL FUNDS

#### FOR THE YEAR ENDED JUNE 30, 2005

Reconciliation of the statement of revenues, expenditures and change in fund balance of governmental funds to the statement of activities

#### Net change in fund balances - total governmental funds

\$ (1,725,364)

Amounts reported for governmental activities in the statement of activities are different because

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Add - capital outlay 1,156,913

Deduct - depreciation expense (2,258,812)

Governmental funds report bond refunding costs and bond premiums as expenditures and revenue, respectively. However, in the statement of activities, these costs are allocated over the life of the related bonds and reported as amortization expense.

Add - bond refunding costs, net of amortization 800,655

Deduct - bond premium, net of amortization (653,655)

Bond proceeds provide current financial resources to governmental funds in the period issued, but issuing bonds increases long-term liabilities in the statement of net assets. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets.

Add - principal payments on long-term liabilities 23,513,107

Deduct - bond proceeds (21,370,000)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds.

Add- decrease in accrued interest payable on bonds48,778Add- decrease in the accrual for compensated absences71,969Deduct- increase in early retirement incentives(562,950)

Change in net assets - governmental activities \$ (979,359)

# NOTES TO THE FINANCIAL STATEMENTS

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# A. Reporting entity

Public Schools of Petoskey (the "District") has followed the guidelines of the Governmental Accounting Standards Board's Statement No. 14 and has determined that no entities should be consolidated into its basic financial statements as component units. Therefore, the reporting entity consists of the primary government financial statements only. The criteria for including a component unit include significant operational or financial relationships with the District.

# B. District-wide and fund financial statements

The District-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the non-fiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. The District had no *business-type activities* during the year ended June 30, 2005.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the District-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

# NOTES TO THE FINANCIAL STATEMENTS

# C. Measurement focus, basis of accounting, and financial statement presentation

The District-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting as are the fiduciary fund financial statements. However, agency funds do not have a measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial* resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period or within one year for reimbursement type grants. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major governmental funds:

The General Fund is the government's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *Sinking Fund* is used to record capital project activities funded with the Sinking Fund millage.

The *Debt Service Fund* accounts for the property tax revenue collected and the payment of principal and interest on the District's outstanding debt other than the Durant Settlement bonds.

# NOTES TO THE FINANCIAL STATEMENTS

Additionally, the District reports the following fund types:

The *Special Revenue Funds* account for the various food service and athletic programs sponsored by the District.

The Debt Service Fund accounts for the principal and interest payments on the Durant Settlement bonds.

The *Capital Project Funds* account for the financial resources used for the acquisition or construction of major capital facilities.

The Agency Fund accounts for assets held for other groups and organizations and is custodial in nature.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the District-wide financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided and 2) operating grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

The effect of interfund activity has been eliminated from the District-wide financial statements.

# D. Assets, liabilities and equity

# 1. Deposits and investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are reported at fair value.

# NOTES TO THE FINANCIAL STATEMENTS

# 2. Receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). There were no interfund advance loans outstanding at June 30, 2005.

# 3. Inventory and prepaid items

Inventory is valued at the lower of cost (first-in, first-out) or market. Inventory consists of expendable supplies held for sale or consumption. The cost is recorded as an expenditure when consumed rather than when purchased. Reported inventories are equally offset by a fund balance reserve which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

Payments made to vendors for services that will benefit future periods are reported as prepaid items.

# 4. Capital assets

Capital assets, which include property and equipment, are reported in the governmental activities column in the District-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

| <u>Years</u> |
|--------------|
| 5-50         |
| 5-15         |
|              |

# NOTES TO THE FINANCIAL STATEMENTS

# 5. Compensated absences

District policy permits certain employees to accumulate earned but unused sick pay benefits which are paid when the employee separates from service with the District. A liability is recorded in the government-wide financial statements for such amounts. No liability is recorded for accumulated vacation since hours earned do not vest.

# 6. Long-term obligations

In the District-wide financial statements, long-term obligations are reported as liabilities in the governmental activities statement of net assets. Where applicable, bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight line method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

# 7. Fund equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

# II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

# A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general and special revenue funds. All annual appropriations lapse at fiscal year end.

The General Fund is under formal budgetary control. Budgets shown in the financial statements are adopted on a basis consistent with generally accepted accounting principles (GAAP), and are not significantly different from the modified accrual basis used to reflect actual results, and consist only of those amounts contained in the formal budget as originally adopted or as amended by the Board of Education. The budget for the General Fund is adopted on a functional basis.

# NOTES TO THE FINANCIAL STATEMENTS

# III. DETAILED NOTES ON ALL FUNDS

#### A. Deposits and investments

A reconciliation of cash and cash equivalents and investments as shown on the Statement of Net Assets and Statement of Fiduciary Net Assets follows:

| Statement of Net Assets                                     |                           |
|---|---------------------------|
| Cash and cash equivalents                                   | \$ 2,187,840              |
| Investments   | 4,048,724                 |
| <b>Statement of Fiduciary Net Assets</b>                    |                           |
| Agency Funds  |                           |
| Cash and cash equivalents                                   | 63,620                    |
| Investments   | 336,380                   |
| Total   | <u>\$ 6,636,564</u>       |
|   |                           |
| Bank deposits (checking accounts, savings                   |                           |
| Bank deposits (checking accounts, savings accounts and CDs) | \$ 2,587,240              |
|   | \$ 2,587,240<br>4,048,724 |
| accounts and CDs)   |                           |

Michigan law authorizes the District to deposit and invest in:

- (a) Bonds, bills, or notes of the United States; obligations, the principal and interest of which are fully guaranteed by the United States; or obligations of the State. In a primary or fourth class school district, the bonds, bills, or notes shall be payable at the option of the holder upon not more than 90 days notice or, if not so payable, shall have maturity dates not more than 5 years after the purchase dates.
- (b) Certificates of deposit insured by a State or national bank, savings accounts of a state or federal savings and loan association, or certificates of deposit or share certificates of a state or federal credit union organized and authorized to operate in this State.
- (c) Commercial paper rated prime at the time of purchase and maturing not more than 270 days after the date of purchase.
- (d) Securities issued or guaranteed by agencies or instrumentalities of the United States government or federal agency obligation repurchase agreements, and bankers' acceptance issued by a bank that is a member of the federal deposit insurance corporation.

# NOTES TO THE FINANCIAL STATEMENTS

- (e) Mutual funds composed entirely of investment vehicles that are legal for direct investment by a school district.
- (f) Investment pools, as authorized by the surplus funds investment pool act, composed entirely of instruments that are legal for direct investment by a school district.

The District's investment policy allows for all of these types of investments.

The District chooses to disclose its investments by specifically identifying each. As of year end, the District had the following deposits and investments:

| <b>Deposit/Investment</b>                   | <u>Maturity</u> | Fair Value                | Rating            |
|---|-----------------|---------------------------|-------------------|
| Bank deposits<br>Michigan Liquid Asset Fund | n/a<br>n/a      | \$ 2,587,640<br>4,048,724 | n/a<br>S&P – AAAm |
|   |                 | <b>\$ 6,635,964</b>       |                   |

# **Investment and deposit risk**

Interest Rate Risk. State law limits the allowable investments and the maturities of some of the allowable investments as identified above. The District's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. State law limits investments to specific government securities, certificates of deposits and bank accounts with qualified financial institutions, commercial paper with specific maximum maturities and ratings when purchased, bankers acceptances of specific financial institutions, qualified mutual funds and qualified external investment pools as identified in the list of authorized investments above. The District's investment policy does not have specific limits in excess of state law on investment credit risk. The ratings for each investment are identified above for investments held at year end.

Custodial Credit Risk – Deposits. Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned. State law does not require and the District does not have a policy for deposit custodial credit risk. As of year end, \$58,148 of the District's bank balance of \$3,158,148 was exposed to custodial credit risk because it was uninsured and uncollateralized. In addition to the standard FDIC insurance coverage, the District has opted to purchase additional insurance coverage on their bank deposits in the amount of \$3 million.

#### NOTES TO THE FINANCIAL STATEMENTS

Custodial Credit Risk – Investments. For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. State law does not require and the District does not have a policy for investment custodial credit risk. On the investments listed above, there is no custodial credit risk, as these investments are uncategorized as to credit risk.

Concentration of Credit Risk. State law limits allowable investments but does not limit concentration of credit risk as identified in the list of authorized investments above. The District's investment policy does not have specific limits in excess of state law on concentration of credit risk. All investments held at year end are reported above.

#### B. Receivables

Receivables in the governmental activities are entirely due from other governments.

### C. Capital assets

Capital assets activity was as follows for the year ended June 30, 2005:

|  | Balance<br>July 1,<br>2004 | Additions | Transfers | Balance<br>June 30,<br>2005 |
|--|----------------------------|-----------|-----------|-----------------------------|
| Capital assets not being                       |                            | 110001010 |           |                             |
| depreciated                                    |                            |           |           |                             |
| Land   | \$ 2,448,187               | \$ -      | \$ -      | \$ 2,448,187                |

| Capital assets being depreciated Buildings and |                            |           |           |                             |
| improvements                                   | 53,903,958                 | 772,696   | 56,655    | 54,733,309                  |
| Furniture and equipment                        | , ,                        | 157,433   |           | 7,222,188                   |
| Total capital assets being depreciated         | 60,968,713                 | 930,129   | 56,655    | 61,955,497                  |

### NOTES TO THE FINANCIAL STATEMENTS

|   | Balance<br>July 1,<br>2004 | Additions                     | Transfers | Balance<br>June 30,<br>2005   |
|---|----------------------------|-------------------------------|-----------|-------------------------------|
| Accumulated depreciation Buildings and      |                            |                               |           |                               |
| improvements Furniture and equipment        |                            | \$ (1,087,553)<br>(1,171,259) | \$ -<br>- | \$(13,542,606)<br>(5,040,690) |
| Total accumulated depreciation              | (16,324,484)               | (2,258,812)                   | <u>-</u>  | <u>(18,583,296</u> )          |
| Total capital assets being depreciated, net | 44,644,229                 | (1,328,683)                   | 56,655    | 43,372,201                    |
| Governmental activities capital assets, net | <u>\$ 47,149,071</u>       | <u>\$ (1,101,899</u> )        | <u>\$</u> | <u>\$ 46,047,172</u>          |

Unallocated depreciation expense of \$2,258,812 was charged to the governmental activities.

### D. Accounts payable and accrued expenses

Payables are 30 percent vendors, 5 percent contracts, and 64 percent accrued expenses.

### E. Interfund receivables, payables and transfers

The following balances represent individual fund interfund receivables and payables at June 30, 2005:

|                                | Interfund<br><u>Receivables</u> | Interfund<br><u>Payables</u> |  |  |
|--------------------------------|---------------------------------|------------------------------|--|--|
| General Fund<br>Nonmajor Funds | \$ 6,468<br>11,752              | \$ 11,752<br>6,468           |  |  |
| Total                          | <u>\$ 18,220</u>                | <u>\$ 18,220</u>             |  |  |

The District reports interfund balances between certain funds. The sum of all balances presented in the tables above agrees with the sum of interfund balances presented in the balance sheet for governmental funds. These interfund balances resulted primarily from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

#### NOTES TO THE FINANCIAL STATEMENTS

Transfers are used to: (1) move revenues from the fund that is required to collect them to the fund that is required or allowed to expend them; (2) move receipts restricted to or allowed for debt service from the funds collecting the receipts to the debt service fund as debt service payments become due; and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

For the year ended June 30, 2005, the District's General Fund transferred \$467,833 to the Athletic Special Revenue Fund to subsidize the athletic programs and the Sinking Capital Project Fund transferred \$66,427 to the Debt Service Fund for debt principal and interest payments on the land contract.

### F. Long-Term Debt

Long-term debt of the District consists of the following:

|   | Balance<br>July 1,<br>2004 | Increases            | (Decreases)           | Balance<br>June 30,<br>2005 | Due<br>Within<br>One Year |

| <b>Total bonds payable</b>                                  | 26,923,676                 | 21,370,000           | (23,480,000)          | 24,813,676                  | 1,232,855                 |
| Other liabilities Land contract Early retirement incentives | 681,437                    | -<br>562,950         | (33,107)              | 648,330<br>562,950          | 34,800                    |
| Compensated absences  | 440,521                    |                      | (71,969)              | 368,552                     | 6,486                     |
| Total other liabilities                                     | 1,121,958                  | 562,950              | (105,076)             | 1,579,832                   | 41,286                    |
| Total long-term liabilities                                 | <u>\$ 28,045,634</u>       | <u>\$ 21,932,950</u> | <u>\$(23,585,076)</u> | <u>\$ 26,393,508</u>        | <u>\$ 1,274,141</u>       |

Long-term debt at June 30, 2005 includes the following:

### **General Obligation Bonds**

1998 school building and site bonds, partially refunded, due in annual installments ranging from \$1,025,000 to \$1,205,000 with interest of 4.6%; final payment due May 1, 2008.

\$ 3,340,000

#### NOTES TO THE FINANCIAL STATEMENTS

2005 refunding bonds due in annual installments ranging from \$200,000 to \$2,125,000 with interest ranging from 3.0% to 5.00%; final payment due May 2019.

\$ 21,370,000

Total general obligation bonds

24,710,000

#### **Durant Resolution Bond**

1998 series, school improvement bond due in annual installments ranging from \$7,855 to \$37,536 with interest charged at 4.76%. This bond is a self-liquidating bond. The principal and interest is payable solely through annual appropriations by the State of Michigan. If the legislature fails to appropriate the funds, the District is under no obligation for payment. Final payment is due May 15, 2013.

103,676

#### **Total bonds**

24,813,676

#### **Other Liabilities**

Land contract payable in monthly installments of \$5,536 including interest charged at 5.00%; final payment due May 1, 2019.

648,330

Early retirement incentives

562,950

Compensated absences

368,552

#### **Total long-term debt**

\$ 26,393,508

The Durant School Improvement Bonds are serviced from funds made available to Michigan School Districts by an annual appropriation by the Michigan State Legislature. If the Legislature does not appropriate the funding required, the District is not liable to pay the debt service. During the year ended June 30, 2003, the State postponed all Durant debt service requirements. No debt service is required for May 15, 2003, 2004, or 2005. The debt service payments will resume in 2006.

#### NOTES TO THE FINANCIAL STATEMENTS

#### **Bond debt service requirements**

The annual requirements to service the bonds, land contract outstanding and early retirement incentive (not including accrued compensated absences) to maturity, including both principal and interest, are as follows:

| <b>Year Ending June 30</b> | <b>Principal</b>     | Interest            | Total                |
|----------------------------|----------------------|---------------------|----------------------|
|                            |                      |                     |                      |
| 2006                       | \$ 1,267,655         | \$ 1,022,786        | \$ 2,290,441         |
| 2007                       | 1,947,067            | 1,045,485           | 2,992,552            |
| 2008                       | 1,477,073            | 972,079             | 2,449,152            |
| 2009                       | 1,624,451            | 907,522             | 2,531,973            |
| 2010                       | 1,681,949            | 849,899             | 2,631,848            |
| 2011-2015                  | 9,373,527            | 3,204,766           | 12,578,293           |
| 2016-2019                  | 8,653,234            | 905,287             | 9,558,521            |
|                            |                      |                     |                      |
| Total                      | <u>\$ 26,024,956</u> | <b>\$ 8,907,824</b> | <b>\$ 34,932,780</b> |

Interest expense and paying agent fees were \$1,251,304 for the year ended June 30, 2005.

Compensated absences and the early retirement incentives are generally liquidated by the General Fund.

### **Current refunding**

During the year ended June 30, 2005, the District issued 2005 Refunding Bonds. The bond proceeds and \$592,000 of other District resources were used to pay interest on and call the 1998 School Building and Site Bonds with maturities of May 1, 2009 and beyond with a principal balance of \$21,815,000 at the time of refunding. As a result, the refunded bonds are considered to be defeased and the liabilities have been removed from the financial statements of the District.

Due to the District's refunding of its 1998 bond series, the cash flow requirements necessary to service debt payments decreased by \$1,096,333.

An economic gain (the difference between the present value of the debt service payments of the old debt and the present value of the refunding debt plus additional contributions) of approximately \$702,310 will be realized.

### NOTES TO THE FINANCIAL STATEMENTS

#### IV. OTHER INFORMATION

#### A. Risk management

The District is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries (workers' compensation) as well as medical benefits provided to employees. The District has purchased commercial insurance for general liability, property and casualty and health claims and participates in the MASB/SET-SEG (risk pool) for claims relating to employee injuries/workers' compensation. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The shared-risk pool program in which the District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

### B. Property taxes

Property taxes are assessed as of December 31, and attach as an enforceable lien on property as of July 1 of the following year. School related property taxes are levied on December 1 each year, based on the previous years assessment, by township governments whose boundaries include property within the District, and are due on February 28. Delinquent real taxes are advanced to the District by the Revolving Tax Fund of the applicable County. Taxes are recorded as revenue in the year levied. Taxes receivable are recorded for property taxes collected within 60 days of year end, if any.

### C. Defined benefit pension plan

### **Plan Description**

The District contributes to the Michigan Public School Employees Retirement System (MPSERS), a cost-sharing multiple-employer defined benefit pension plan administered by the State of Michigan Department of Management and Budget, Office of Retirement Systems. MPSERS provides retirement, survivor and disability benefits, and death benefits to plan members and beneficiaries. Benefit provisions are established and must be amended by state statute.

The Office of Retirement Systems issues a publicly available financial report that includes financial statements and required supplementary information for MPSERS. That report may be obtained by writing to Michigan Public School Employees Retirement System, 7150 Harris Drive, PO Box 30171, Lansing, Michigan, 48909 or by calling (517) 322-5103.

#### NOTES TO THE FINANCIAL STATEMENTS

#### **Funding Policy**

Member Investment Plan (MIP) members enrolled in MIP prior to January 1, 1990 contribute at a permanently fixed rate of 3.9% of gross wages. Members first hired January 1, 1990 or later contribute at the following graduated permanently fixed contribution rate: 3% of the first \$5,000; 3.6% of \$5,001 through \$15,000; 4.3% of all wages over \$15,000. Basic Plan members make no contributions. The District is required to contribute the full actuarial funding contribution amount to fund pension benefits, plus an additional amount to fund retiree health care benefits on a cash disbursement basis.

The current rate is 14.87% of annual covered payroll. The contribution requirements of plan members and the District are established by Michigan State statute and may be amended only by action of the State Legislature. The District's contributions to MPSERS for the years ended June 30, 2005, 2004 and 2003 were \$1,975,949, \$1,756,250, and \$1,662,755, respectively, equal to the required contributions for each year.

#### **Other Post-employment Benefits**

The State of Michigan has contracted to provide the comprehensive group medical, hearing, dental and vision coverages for retirees and beneficiaries. All health care benefits are on a self-funded basis. A significant portion of the premium is paid by MPSERS with the balance deducted from the monthly pension.

Pension recipients are eligible for fully paid Master Health Plan coverage and 90% paid Dental Plan, Vision Plan and Hearing Plan coverage with the following exceptions:

- 1. Retirees not yet eligible for Medicare coverage pay an amount equal to the Medicare Part B premiums.
- 2. Retirees with less than 30 years of service, who terminate employment after October 31, 1980 with the vested deferred benefits, are eligible for partially employer paid health benefit coverage (no payment if less than 21 years of service).

### D. Sinking funds

The Sinking Capital Projects Fund records capital project activities funded with a sinking fund millage. For this fund, the District has complied with the applicable provisions of §1212(1) of the Revised School Code and the applicable section of the Revised Bulletin for School District Audits of Bonded Construction Funds and of Sinking Funds in Michigan.

#### NOTES TO THE FINANCIAL STATEMENTS

### E. School improvement fund

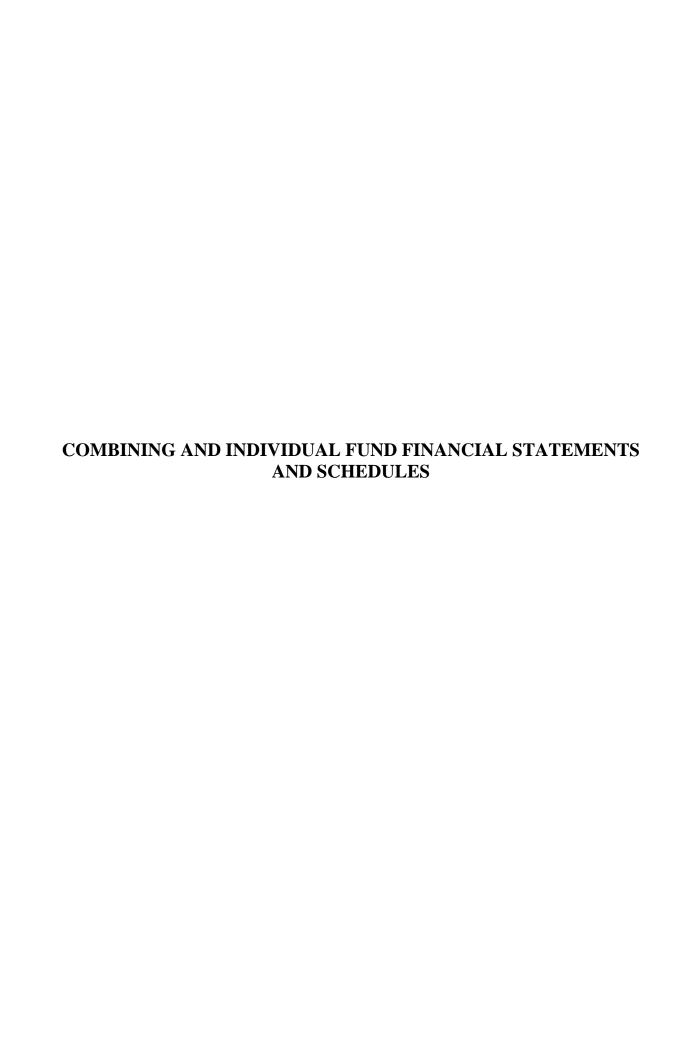

The 1998 Capital Projects Fund includes capital projects activities funded with bonds issued after May 1, 1994. For this capital project, the District has complied with the applicable provisions of §1351a of the Revised School Code.

### F. Commitments and contingencies

Under the terms of various Federal and State grants and regulatory requirements, periodic audits are required and certain cost may be questioned as not being appropriate expenditures under the terms of the grants and requirements. Such audits could lead to reimbursement of the grantor or regulatory agencies. However, management does not believe such disallowances, if any, would be material to the financial position of the District.

As is the case with other entities, the District faces exposure from potential claims and legal proceedings involving environmental matters. No such claims or proceedings have been asserted as of June 30, 2005.

# INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

August 5, 2005

Board of Education Public Schools of Petoskey Petoskey, Michigan

We have audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of *Public Schools of Petoskey* (the "District") as of and for the year ended June 30, 2005, which collectively comprise the District's basic financial statements, and have issued our report thereon dated August 5, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

# **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the District's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide an opinion on the internal control over financial reporting. However, we noted a matter involving the internal control over financial reporting and its operation that we consider to be a reportable condition. Reportable conditions involve matters coming to our attention relating to significant deficiencies in the design or operation of the internal control over financial reporting that, in our judgment, could adversely affect the District's ability to record, process, summarize, and report financial data consistent with the assertions of management in the financial statements.

The reportable condition is described as follows:

Due to staff size, there is limited segregation of duties over cash receipts and disbursements and the recording of these transactions. The District recognizes this risk, but no change will be implemented because the costs would exceed the benefits.

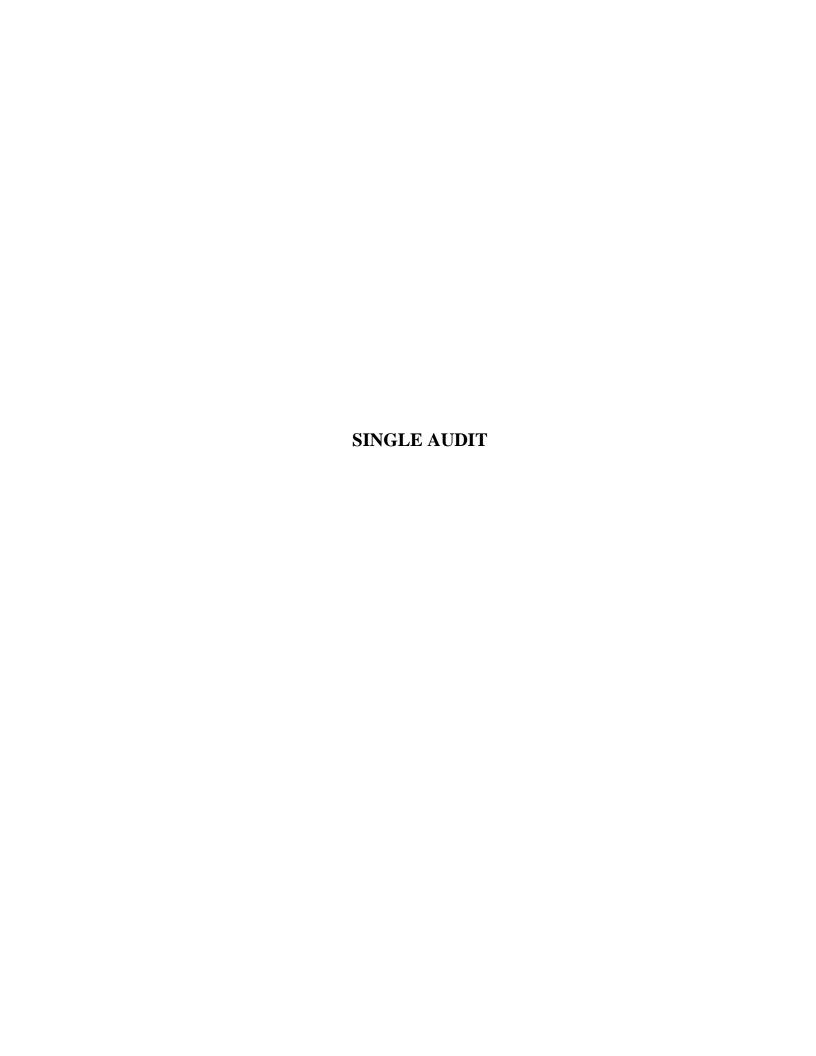

A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses. However, we believe that the reportable condition described above is not a material weakness.

# **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the audit committee, management, others within the organization and the Board of Education and is not intended to be and should not be used by anyone other than these specified parties.

Rehmann Loham

#### Notes to Schedule of Expenditures of Federal Awards

#### 1) Basis of Presentation-

The Schedule of Expenditures of Federal Awards includes the federal grant activity of Public Schools of Petoskey and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, Audits of State and Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in this schedule may differ from amounts presented in or used in the preparation of the basic financial statements.

Management has utilized the Grants Section Auditors Report (Form 7120) in preparing the Schedule of Expenditures
of Federal Awards.

# INDEPENDENT AUDITORS' REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

August 5, 2005

Board of Education Public Schools of Petoskey Petoskey, Michigan

# **Compliance**

We have audited the compliance of Public Schools of Petoskey with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that are applicable to each of its major federal programs for the year ended June 30, 2005. Public Schools of Petoskey's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Public Schools of Petoskey's management. Our responsibility is to express an opinion on Public Schools of Petoskey's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Public Schools of Petoskey's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on *Public Schools of Petoskey's* compliance with those requirements.

In our opinion, *Public Schools of Petoskey* complied, in all material respects, with the requirements referred to above that are applicable to its major federal programs for the year ended June 30, 2005.

#### **Internal Control Over Compliance**

The management of *Public Schools of Petoskey* is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered *Public Schools of Petoskey's* internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants caused by error or fraud that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the audit committee, management, the Board of Education, others within the organization, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Rehmann Loham

An Independent Member of Baker Tilly International

August 5, 2005

Superintendent and Members of the Board of Education Public Schools of Petoskey Petoskey, Michigan

Through our role in performing financial statement services for the past three years, we have become familiar with your systems, operations and management team. As we work with our clients, we strive to provide direction and constructive feedback to help facilitate their success. The better we get to know you and your objectives, the more we can offer in terms of proactive advice.

In planning and performing our audit of the financial statements of the *Public Schools of Petoskey* for the year ended June 30, 2005, we considered the District's internal control structure to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control structure.

However, during the above-mentioned engagement, we became aware of certain informational matters. The memorandum that accompanies this letter summarizes our comments and suggestions regarding these matters. This letter does not affect our report dated August 5, 2005 on the financial statements of the *Public Schools of Petoskey*.

We have already discussed these comments with the Business Manager, and we would be pleased to discuss them in further detail at your convenience.

Rehmann Lohan

If we can be of assistance, we hope you will view us as an integral part of your team.

Best wishes for a successful 2005-2006.

Encl.1

#### COMMENTS AND RECOMMENDATIONS

**JUNE 30, 2005** 

#### NO CHILD LEFT BEHIND – REQUIREMENT REMINDER

No Child Left Behind Act (NCLB Act) enacted on January 8, 2002, required that all paraprofessionals hired after January 8, 2002 must have (1) completed two years of study at an institution of higher education; (2) obtained an associate's (or higher) degree; or (3) demonstrate, through a formal State or local academic assessment, knowledge of and the ability to assist in instructing reading, writing, and mathematics (or, as appropriate, reading readiness, writing readiness, and mathematics readiness). Paraprofessionals hired before January 8, 2002 and working in a program supported with Title I funds also must meet these requirements by January 8, 2006.

# MICHIGAN FINANCE QUALIFYING STATEMENT

Beginning January 1, 2004, all governmental units subject to the Revised Municipal Finance Act (PA 34 of 2001) must submit their qualifying statement electronically using the Department of Treasury's website. The District is required to file this statement with the Department of Treasury by December 31, 2005.

#### ELECTRONICALLY FILING THE FINANCIAL STATEMENTS

Beginning with the fiscal year ended June 30, 2005, the District must submit their financial statements to the State of Michigan electronically. To do so, the financial statements must be created electronically in an Adobe Acrobat file. This file may also be forwarded to bond counsel for preparation of the SEC continuing disclosures and to the Michigan Department of Education to fulfill the District's annual reporting requirements. We will provide an electronic version of the financial statements for your use.

#### **CONCLUSION**

It has been a pleasure to provide audit services to the *Public Schools of Petoskey*. Management was well prepared for the audit, providing us with all requested information.

We appreciate your business! Thank you.
