

Staff Survey - Student Health Needs

The schools of Emmet County are working with the Health Department of Northwest Michigan and McLaren Northern Michigan to assess health needs among students. This survey is part of a preliminary assessment to discover if there may be a need to make health-related services more available at local schools. Participating in this survey will help us gather focused data on our specific needs, to guide planning discussions and to be prepared should funding opportunities arise. This survey is voluntary and your responses are anonymous. As school staff, your perspective on student health needs is extremely valuable. Thank you for participating!
