PURPOSE & RESPONSIBILITIES OF TLC & TLC TASK FORCES

District TLC- District reps sit as an advisory team to enhance district-wide communication systems, analyze data, make recommendations for improvement, facilitate and assess improvement work, and share collective responsibility to improve student learning.

Task Forces: A group of educators that have a primary charge each year in a precise area of district school improvement. TLC Task Forces work on specific related duties, make data-based recommendations to District TLC, share other actions required with PLCs and building TLCs, help create and monitor Action Plans, and take an active role in the communication systems necessary for implementation across the district.

Like Purpose + Like Message + Aligned Action = Greater Student Growth!
